

## Canadians Eliminate Drumbheller in Thrilling Games

Won Two Straight With Four Goals to One—Final Games at Calgary With Luscar.

Coleman Canadians covered themselves with praise and glory from the fans of the Pass towns in defeating the much-heralded Drumbheller Miners in two straight games by a total of four goals to Drumbheller's one. Both teams were showered with cheers for the fine brand of hockey played, there being fewer penalties seen than usual for such a keenly contested game.

Coleman supporters were proud of the Canadians' showing. Every member played for the team, though of course those who scored the goals came in for a greater share of publicity in the headlines. On Saturday night, in the first game, Bill Fraser landed the goal that was as good as a dozen, for it won the game, and games count this year instead of total goals scored.

On Monday night at Drumbheller the scorers for Coleman were Lopicuk, and Peter Brown (2). To O'Brien of Drumbheller goes the credit for scoring the only goal of the two games for his team. Buddy Wolfe of Drumbheller, and Duke Scodarello of Coleman, were star minders, though in Monday's game Scodarello stopped far more shots on his goal than Wolfe, so determined were the Miners in their efforts to score.

Big Duke Kwasney on defence played a star game, in fact the whole team put everything they had into it, and Coach Jimmy Evans certainly felt proud of the boys when they finished on Monday night as champions of Southern Alberta, thereby having the record of twice defeating Drumbheller in the two years they have played senior hockey.

Complete reports of the games were telegraphed to the dailies by The Journal, while the broadcasting conveyed a rink-side report of the game.

Washington should be referred to as The City Beautiful.—Manchester Union.

## NOW JUDGE HOWSON

Former Liberal leader in the provincial legislature, Hon. W. R. Howson has been elevated as a judge of the Supreme Court in succession to the late Mr. Justice Boyle. Judge Howson spoke here in the provincial election campaign in the Community hall last August.

## LOCAL NEWS

Coleman Elks dance on St. Patrick's night promises to be a real social event of the season.

Mr. George Kellock went to Calgary on Tuesday on a business trip.

"It isn't your town—it's you," is something to remember when you hear someone grousing about his own home town.

Dr. and Mrs. Borden and family have taken up residence at 22 Belzize Park, Hamstead, London, N.W. They left here the middle of December, and after spending Christmas in Nova Scotia, went to England for a year.

Additional floor space on both floors of Coleman Hardware Co. store will be provided by the changing of position of the staircase from the centre of the store to the back. Other improvements are contemplated by Wilfrid Dutil, proprietor.

Twenty junior and twelve senior girls took examinations in First Aid under the local branch of St. John Ambulance Association last week. John M. Rushon, secretary, Archie McCulloch, E. X. Hill and W. Lonsbury conducted the examinations.

Mrs. J. Emmerson was pleasantly surprised on Monday evening when about fifteen ladies descended in a body for the purpose of giving her a handkerchief shower prior to her departure for a visit to her old home in Durham County, England. The bridge prizes were won by Mrs. W. Burrows and Mrs. J. Nash, the consolation going to Mrs. J. J. McIntyre.

## Sidelights and Comment on Game Drumbheller Miners vs. Coleman

A Lethbridge man won the Grand Union Hotel sweep.

Parking space for cars was at a premium.

Clarence Campbell of Edmonton handled the game as referee without a single ruling being disputed.

The game was played far into Sunday morning by all and sundry, resulting in some heated arguments.

Hotel accommodation in Coleman being taxed to capacity, Drumbheller team stayed at the Greenhill hotel.

One lady supporter's hunch that Coleman would win because they were the first to appear on the ice proved right. She states it has usually been the rule.

The goal-keepers of both teams were given applause as they skated to their positions at the beginning of each period. They fully deserved it.

A Bellevue man claims to have been brutally assaulted by four or five other men on Saturday night in Coleman after the hockey match.

Bellevue sent a big contingent to the game, as also did Blairmore and Hillcrest. They came in trucks and cars, while some walked. Fernie, Natal and Michel came by busses and cars.

Eighty minutes of play surely gave the fans their money's worth on Saturday. The pent-up feelings of the 1600 spectators went wild when Coleman scored the winning goal in the second overtime period.

Reports of the game were telegraphed immediately on its close to the Calgary Herald and the Lethbridge Herald by The Journal. Hockey fans all over the province were anxious to get the story as well as the broadcast. Walt Tiberg of Blairmore reported for the Albertan.

Gordie Ross, well known as the son of Dr. Ross, a former Coleman mine doctor, broadcast the hockey game last Saturday from the rink side for a Calgary radio station. Local reception in the pass towns was not clear owing to two other stations being on almost the same wave-length as the Calgary station.

Mr. and Mrs. J. T. Fisher of Medicine Hat came up to see the Drumbheller vs. Coleman hockey game, their son Joe being a player on Coleman team.

An amusing incident prior to the commencement of the game was when a block of unsold reserved seats was thrown open for those who had paid general admission. They just swarmed over into those seats from the far corner, where they had been jammed in a compact mass, like a swarm of bees emerging from a hive.

V. C. W. Stanley, president of the Alberta Amateur Hockey Association, was here for the big game. Mr. and Mrs. A. Millican, of the Calgary broadcasting station; Gordie Ross, announcer, and Don McKay, technician, were on the job, and Sam McDowell of Blairmore looked after the long distance telephone service by which the broadcast was relayed into Calgary studio.

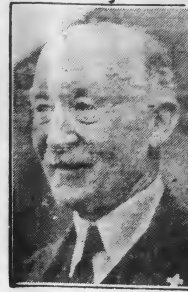

"Bill" Chappel, reliable time-keeper for many a league match, was on the job with his chronometer. What he says goes when it comes to keeping check.

On the boys who were ordered into the penalty box. Saturday's game, he stated, was the cleanest he had kept a sheet for in senior league hockey.

Pete Brown, absent from the line-up in the first game, came back with a vengeance in the second as he accounted for two goals and assisted in a third. As the team can only dress ten players Johnson was on the sidelines at Drumbheller.

It is of interest to recall that last year Coleman scored five goals in ten minutes of the third period of the second game. Total goals counted and in the two games Coleman scored 6 and Miners 3.

## 79 YEARS OLD

Lord Baden-Powell, beloved chief of the Boy Scouts of the World, whose recent birthday was celebrated by Boy Scouts in all parts of the world.

"If every citizen keeps his own doorstep clean, a clean town will result." This quotation was made by the present king, when Prince of Wales, in a public address in England.

man scored 6 and Miners 3.

Sticky ice handicapped Jimmy Joyce in those spectacular dashes down the ice for which he was noted in past seasons. Big Duke Kwasney was right on the job in the pinches, as defence man, with his younger brother Rudolph.

Here is a partial list of those going to Drumbheller for the second game of the series: Ed. Ledieu, William and Mae Bell, Robert Jenkins, Robert Penman, John Duncan, Mrs. Joyce, Mr. and Mrs. Easton and Challis. The Greyhound bus was driven as far as Macleod by Lou Clary, where it was taken over by a regular driver.

## The Second Game of Hockey Finals Play in Calgary on Saturday

Special Train Will Be Run—Soft Ice Compels Holding of Game on Artificial Ice in City

Last night Coleman defeated Luscar in the first game of Alberta senior hockey finals by a score of 2-1 at Edmonton, scorers being Brown from Joyce in fifteen minutes of first period and Bill Fraser from Fisher in one minute of third period. Hill scored for Luscar in 18 minutes of the second period. The second game will be played in Calgary Saturday night on artificial ice, as Coleman could not guarantee ice.

A special excursion fare of \$3.75 return leaving at 2.21 Saturday, good to return up till Tuesday, will enable Pass fans to go Calgary. Direct special will leave Macleod, on arrival of No. 12, arriving at Calgary 8.10 p.m. for the game called at 9.15. Mr. Rippon has reserved seat tickets for the game.

Many have already purchased tickets, and will, if a third game is played, remain over.

## COLEMAN BOWLERS TRIM CALGARY VISITORS

The Bowldrome, Albert Sapeta, proprietor, was an interesting spot on Saturday when seven Calgary bowlers were matched against Coleman players. Coleman won two five-pin games and Calgary one, and in the ten-pin games Coleman won every match. Visiting players were: Ed. Ledieu, William and Mae Bell, Robert Jenkins, Robert Penman, John Duncan, Mrs. Joyce, Mr. and Mrs. Easton and Challis. The Greyhound bus was driven as far as Macleod by Lou Clary, where it was taken over by a regular driver.

## Registration of DOGS

PUBLIC NOTICE is Hereby Given that on and after the publication of this notice, all owners and harborers of unregistered dogs within the Town of Coleman must call at the town hall and obtain license under the by-laws of the town. Failure to do so renders owners liable to prosecution. Stray dogs having no apparent ownership will be destroyed.

The rates are: Male Dogs \$2.00; Females \$4.00; Police Dogs (male) \$5.00; Female \$10.00.

By Order, POLICE COMMITTEE.

# Any Time is Tea Time

## "S I R DRAKE" TEA

### A Pot Of Gold?

It is said that people learn by experience. True, undoubtedly, but one wonders sometimes just how much experience is needed for some people to learn some lessons.

In illustration one might cite the well established axiom that "there is no royal road to wealth." Experience, reaching back for centuries has amply proved the truth of this assertion but the lessons of the past do not appear to be very deeply engraved on a good many human minds, or if the truth of the statement is admitted and recognized, it is quite frequently ignored or blindly waived aside.

Why is it that so many people are easy to convince, against all the laws of sound economics, in defiance of recorded history and experience, in opposition to their own inherent common sense, that there is a pot of gold at the end of the rainbow to be had merely for the gathering?

Why is it that people of fair education, people who are well read, people who usually apply good sense in the pursuit of their daily avocations and even demonstrate shrewd ability in ordinary business transactions, fall an easy prey to the lure of financial fakirs, confidence tricksters and unscrupulous sharks?

There can be only one answer to these questions and that is that people of ordinary intelligence and acumen who succumb to the wiles of the tricky financial gangster and invest hard earned savings in wild projects and doubtful schemes have permitted blind, unreasoning hope to supplant judgment and common sense. In other words, the desire to get something for nothing or to acquire a lot from a little is allowed to over-ride good sense. The inevitable result of such lapse is disastrous speculation in schemes in which every card is stacked against the player.

And once the victim has allowed himself to be lured into the net by promises of huge returns and great rewards it is astonishing how reluctant he is to admit even to himself that he has been ensnared even after the truth is revealed in unpleasant starkness. The net in which he is caught is made of golden meshes and rather than credit anything else he is ready to believe the most impossible stories and back up his faith by sending good money after bad until he is ultimately strangled.

A remarkable illustration of the operation of this psychological trap was recently unfolded in the expose of the "Drake estate" frauds in the Chicago courts when it was revealed that 70,000 residents of mid-western States had contributed a total of \$1,350,000 to a group who represented they held claims to the Sir Francis Drake estate, consisting of incredible wealth in Great Britain plus title to debts owned by the estate in 66 countries of the world with compound interest which had been piling up for 300 years. It was represented that those who would contribute funds to enable the group to settle up the estate would reap a thousandfold on their investment.

Even after the ringleader was sentenced to a ten-year term in jail money continued to roll in to his agents who collected on a commission basis to further their alleged efforts to "collect the estate", evidence in the trial of 41 of these collectors revealed.

Wild stories were told at campaign meetings and, judging from the resultant flow of money, believed. Prospects were told that all the silver and gold in the world really belonged to the estate, which was why the United States began calling in both and why England departed from the gold standard, that when Roosevelt was reported on a fishing trip he was actually in England settling the estate and that the ring leader was not in jail but was waiting to release a secret understanding with the Bank of England, which would start the golden flood pouring across the prairies. One of the prospects is reported to have written the Bank of England, and when told the Drake estate had been settled long ago, "repeated his plaintive query, 'What steps do I take to get my money?'"

It reads like a fairy tale, but it is opportune to point out that for this one scheme which received a great deal of publicity, there are hundreds of others to which the unsuspecting public is invited to subscribe, about which not much is heard.

Such appeals are invariably launched on the well-founded assumption that there are still plenty of people gullible enough to part with their money if the bait is made sufficiently glittering in the form of handsome returns at short notice.

Those who are tempted by such blandishments would do well to hesitate before taking the plunge into dubious waters and particularly to be wary of glittering promises of speedy and handsome dividends. Money is not made that way, except by the few who are out to "take the suckers for a ride."

For the average man or woman there is just one reasonably safe way to ensure a competence for old age and that is by the slow and painful route of hard work, thrift and investment of savings in sound securities, remembering that the sounder the security, the smaller will be the returns. Such method requires courage, persistence, self-denial, endurance and, intelligence, but it is the only rational way, for there is no royal road to riches.

### Birthplace Of King

Was Richmond Park And Not Sandringham As Sometimes Stated

Several writers, mentioning the Birthplace of the King, have stated that he first saw the light of day at York Lodge, on the Sandringham Estate. Actually he was born at White Lodge, Richmond Park, the home of his parents, the Duke and Duchess of York, the Glasgow Herald points out. A few days after his christening the household moved to York Lodge, which was later the birthplace of his brothers and sisters.

### An Unusual Sale

Railway In New Brunswick Brought \$100,000 At Auction

The Tobique Valley railway, running 26 miles from Perth Junction to Piaster Rock, was sold for \$100,000 to S. Ronald Jones and E. B. Harley, Saint John, at a public auction, unique in Canada's history. In 1897, the year of its completion, the railway was leased to the Canadian Pacific railway for 99 years, and rental from the C.P.R. will be the only source of revenue for the purchasers for the next 60 years.

# PURITY FLOUR

Best for all your Baking

### Robbed Press Of Headline

Prince Of Wales Had Fall Papers Did Not Get

Rt. Hon. RAUL DANDURAND, government leader in the Senate, told the Red Chamber how King Edward as Prince of Wales "got even" with newspapers for publishing pictures of him thrown by horses.

The Senator described a meeting with the Prince in 1927 and a discussion of horse racing in which the Prince said he had no more falls than the average rider but that "terrible photographers had him in the press all the time."

"I once got even with them," he quoted the Prince as having told him. "I robbed them of a big headline. On the polo grounds at the other end of the field, far away from the clubhouse, I was knocked down by a mallet stick which grazed the eye and made a gash on the eye-lid. My shirt was covered with blood. I was picked up and driven to a nearby hospital where I was given three stitches. If reporters had been at hand the world would have been told I was dead."

### WAKE UP YOUR LIVER BILE—

And You'll Jump Out Of Bed in the Morning Ready To Go

The liver should pour out two pounds of bile into your bowels daily. If this bile is flowing freely, your food doesn't digest. It just decays. Your stomach, liver and bowels get out of order. You feel sour, sick and the world looks pink. A new bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes three good, old Carter's Little Liver Pills to get these pounds of bile flowing freely and make you feel like a new man. They do the work without harm to your system. Ask for Carter's Little Liver Pills by name at all drug stores before anything else. See.

### Smoke Drift Of London

Reports Would Indicate It Travels Far Long Distance

That smoke originating in England is being observed in farthest corners of Europe was reported at the annual conference of the National Smoke Abatement Society in Bristol, England, by Dr. A. G. Ruston of Leeds University. "Smoke from industrial England has been observed," he said, "as far away as Valentia Island, on the West coast of Ireland; the smoke drift of London is frequently seen by air pilots over the Channel and Northern France; a soot fringe on the edge of continental clouds derived from the Channel and the West Riding of Yorkshire—has been photographed; and it has been alleged that the sheep on the Isle of Man turn darker in color when an east wind blows across from Lancashire."

### Russia's Communal Kitchens

Preparation Of Food Is Done Entirely By Machinery

Twenty-one million Russians are being fed to-day from communal kitchens. Last year they consumed ten billion dishes. During the past six years the number of persons served from such kitchens has increased by 20 times; and the service is still growing. One kitchen now in course of construction will be capable of preparing 450,000 dishes a day. The preparation of food in these organizations has become so highly mechanized that the food is not touched by human hands during the whole process.

### Gift For Noted Pianist

Watch Made Especially For Paderewski Has No Duplicate

Paderewski, the great pianist, is to be presented with a watch which he will know is his. It has just been completed in Warsaw. The timepiece has the hours represented by the letters I. J. Paderewski, a piano keyboard representing the minutes. The hour hand is in the form of a pen, the minute hand like a conductor's baton, the second hand marked with the name of the district in which Paderewski was born, and around the dial are the notes of 12 Paderewski compositions. It is said to keep perfect time.

### Snow And Apple Blossoms

So much snow has fallen in the region of the Zugspitze mountain, in Upper Bavaria, that skiing has already become possible. And down in the valleys chestnuts and apple trees have just burst into bloom for the second time this year.

One gratifying accomplishment of religious disputes in Germany is that the Prussian Bible Society sold last year nearly twice as many Bibles as in previous years.

There are more people to the acre in Barbados than on any other spot in the western hemisphere. 2140

### May Build Salt Refinery

Test Drilling Will Start Soon At Salt Beds In Alberta

Erection of a \$70,000 salt refinery at McMurray, Alberta, in the spring will be carried out by a new company, according to F. I. Batchelor of Cornwall, Ontario, head of the new firm, who recently returned from a week's inspection trip at the salt beds.

A diamond-drill crew will commence operations as soon as the cold snap breaks in the north and will continue test drilling until spring on the property leased from the provincial government, said the former Calgary bank manager.

If present indications of the extent of the salt bed are confirmed, the refinery will be constructed in the spring, Mr. Batchelor said.

Plant will have a production of 30,000 tons of salt a year and will employ in the neighborhood of 40 men.

Questioned regarding a market for the product Mr. Batchelor stated Alberta alone consumes from 30,000 to 32,000 tons yearly.

Central western provinces use 70,000 to 80,000 tons a year. Plant will be confined to manufacturing table salt at the outset and will branch into various grades later. The salt is mined by drilling and pumping the salt to the surface in the form of brine. The brine is evaporated in the refinery.

Refinery will be erected beside the salt bed at McMurray and if necessary the brine may be piped from wells some distance away. Production is expected to commence by next September.

### Taxed Captain's Skill

Locomotives Broke Moorings In Storm And Jumped About Deck

To have four 72-ton locomotives dance about the deck of a little tramp steamer in a monsoon on the Indian Ocean, was the experience of Captain H. Nyegaard master of the Olander. He told of his perilous trip on arriving at Singapore, Malaysia. The locomotives were on their way from Alsace-Lorraine to China and were strapped to the deck with heavy chains. Their 30-foot tenders were in the hold. The terrible wind sent waves after wave over the little vessel until she was practically under water all the time. Suddenly, Captain Nyegaard said, the locomotive lifted and jumped about as if alive, nine of the chains having parted. For several hours the ship had to be maneuvered to keep it above water and the locomotives on deck. Stopping at Bombay Captain Nyegaard had the bindups renewed.

A new alloy of nickel, chromium, tungsten, silicon and copper superheats water at temperatures up to 2,000 degrees.

## School Absences Due To Colds Cut Almost One-Half

Famous Colds-Control Plan Tested In Three Series of Clinics Among 5,118 School Children

FURTHER PROVED IN HOME USE

School absences due to colds have been reduced nearly one-half (40.2%) by following Vicks VapoRub for Better Control of Colds. This is shown in records of clinics among 5,118 school children.

Mothers and teachers alike welcome Vicks VapoRub as a practical guide to fewer and shorter colds. This commonsense, medically sound plan is based on three simple steps: 1. To Help Build Resistance to Colds Live normally—avoid excesses. Eat simple food and keep elimination regular. Drink plenty of water. Take some exercise daily—outdoors preferably. Get plenty of rest and sleep. 2. To Help Prevent Many Colds At the first warning nasal irritation, sniffle or sneeze, use Vicks VapoRub—just a few drops up each nostril. Vicks VapoRub is specially designed for the nose and upper throat—where most colds start. Use in time. VapoRub helps to prevent many colds—and to throw off head colds in the early stages.

3. To Help End a Cold Sooner If colds are developed, or strikes chest at bedtime with Vicks VapoRub. VapoRub acts as a powerful stimulant to the skin, like a poultice or plaster; (2) By inhalation of its penetrating medicated vapors, direct to inflamed air passages. Through the night, this combined vapor-poultice action loosens phlegm, soothes irritation, helps break congestion.

What Vicks Plan can do for others has been indicated not only in clinics, but also in the further proof of every day home use by thousands. What it can do for you and your family can be proved only by trying it. Directions for following the Vicks Plan are on each package of Vicks VapoRub and Vicks VapoBalm.

"BIG BEN IS GOOD, DOWN TO THE VERY LAST CHEW"

The PERFECT Chewing Tobacco

### Had Varied Career

Canadian Holder Of Victoria Cross Secures Promotion

An old soldier is wearing his medals, or rather his ribbons, with great pride in the parliament buildings these days, for Corporal Filp Konowal, V.C., has been promoted from his position on the cleaning staff to that of a uniformed attendant in charge of room 18, the common room in the House of Commons. Konowal has had a varied career. Born in Russia, he went overseas with the 7th Canadian battalion from Ottawa. He won his V.C. at Hill 70 and Lens when he bayoneted 18 Germans, took three prisoners and a machine gun and destroyed two other machine guns.

King George told him when he presented him with his medal that he had one of the outstanding records in the army. Then Konowal spent nine years in prison. After that he did not seem able to find anyone who needed a V.C. to work for them, and eventually he was hired on the charring staff at parliament buildings.

One of his duties was to mop up the floor of the hall of fame, where it had been suggested by patriotic citizens bronze busts of Canada's holders of the Victoria Cross should be placed.

Four days ago he was promoted, now resident in a brand new apartment with gilt buttons, he attends to members in their common room.

### SELECTED RECIPES

#### CARAMEL NUT PUDDING

- 1 cup brown sugar
- 1 cup Crown Brand Corn Syrup
- 1 cup boiling water
- 2 cups scalded milk
- 4 tablespoons Benson's Corn Starch
- 1 teaspoon salt
- 1 cup cold milk
- 2 eggs
- 1/2 teaspoon vanilla

Melt the sugar to caramel; add the boiling water gradually; cook until it is fairly thick. Mix the Benson's Corn Starch, Crown Brand Corn Syrup, salt and cold milk. Add gradually to the hot milk in a double boiler. Stir constantly and as mixture begins to thicken pour in 10 minutes. Add the yolks of the eggs which have been well beaten. Cook again for three minutes. Add flavoring and pour into a greased baking dish. Top with the following mixture:

- 2 egg whites stiffly beaten
- 2 tablespoons fine fruit sugar
- 1 tablespoon Benson's Corn Starch
- Sprinkle with nuts and brown in the oven. Chill and serve.

#### Safety-At-Sea Service

Reports received from four liners on the Atlantic stated reception of complete weather maps by radio facsimile had been successful, according to Charles Pannill, president of the Radiomarine Corporation of America, which has just started the new safety-at-sea service.

Numbers had sex in ancient lore. The odd numbers were masculine and the even ones feminine, with the odd numbers having the greater power.

### Recalls Queen As Customer

Edmonton Man Sold Cot Outfit For Present King

The outfit of linen for the cot in which the present King spent some of his first year's life back in 1894, was sold to Queen Mary by Walter J. Price, now on the staff of a store in Edmonton.

He was a clerk in a drygoods shop in Malvern, Worcestershire, at the time, and to that town came Queen Mary in the summer of 1894 with the infant Prince of Wales. They were guests at one of the spas for some weeks.

One day the Queen came into the store where Mr. Price was employed and to the counter where he was on duty.

"She came in just like any ordinary customer" says Mr. Price, "told what she wanted, and was shown to my counter. As she sat down she asked if I knew who she was, and on my assuring her that I did, she smiled and went on at once with her shopping."

"I sold her a complete outfit of pillow cases, sheets, and spread for the baby prince's cot. She was not hard to serve, but of course I showed her the kind of goods I thought would please her. There was not the slightest suggestion of 'side' or formality in her manner. On the other hand, she showed just the sort of motherly concern that one would expect."

### Learned Too Quickly

Robot Narrowly Missed Killing Its Tutor With Gun

A new trick that he was adding to his mechanical man's repertoire at the Pacific International Exposition in San Diego, California, almost cost the life of Henry C. May, inventor.

May was trying to teach the robot to shoot a revolver. The mechanical man learned more quickly than he anticipated, and shot him in the head. He will recover.

## BANISH RHEUMATISM

3 Sizes - 50c - \$1.00 - \$1.50  
The \$1.00 size is nearly four times the 50c size and the \$1.50 size is twice the \$1.00 size.

## Italy Reported To Be Willing To Negotiate For Ending Of War

Paris.—Official sources said Italy had indicated to France a willingness to negotiate for termination of the Ethiopian war.

The negotiations, it was stated, would be based on Italy's recent victories on both the northern and southern front.

In French circles it was said the government was "undecided" whether the reported indication of willingness to talk peace was given by Premier Mussolini in order to express his real desire or simply to prevent an increase in sanctions against Italy.

However, France's foreign minister, Pierre-Etienne Flandin, is ready to ask the League of Nations to resume its efforts to end the Italian-Ethiopian war, informed circles said.

These sources said Flandin will attempt to get Anthony Eden, British foreign secretary, to renounce Britain's "leanings" toward an oil embargo against Italy in the belief the time is "ripe" for peace negotiations.

Diplomats assert a serious effort to end the African war will be made with the approach of Ethiopia's rainy season, ending military operations until the fall. They hold negotiations have good chances of success because:

1. Premier Mussolini's armies have scored several victories against Emperor Haile Selassie's troops and Addis is "avenged."
  2. Great Britain and France want to turn their attention to Germany's growing armies. They realize Italy's co-operation is essential in the long run to assure Austria's independence.
- Diplomats believe the recent Paris talks between central Europe's kings and statesmen constituted, the turning point in the Italo-Ethiopian war, although the conflict was not once directly discussed.

### British Member Criticized

Labor Member Told Royal Family Was Never Discussed

London.—David Kirkwood, Labor M.P., was sharply criticized in the House of Commons for citing the royal family during debate on a supplementary estimate for the labor ministry.

Plauding that vacations be allowed to unemployed persons in training camps, Kirkwood referred to the travels a few years ago in South Africa and Argentina of "a wealthy young man" who at that time was the Prince of Wales.

The deputy chairman of the house interrupted him with the remark, "the honorable members must be aware that we never discuss the royal family in this house."

### For Travelling Expenses

Ottawa.—Travelling expenses of members and officers of the Canadian Radio Commission from April 1, 1933, to February 21, 1936, amounted to slightly more than \$96,000, according to a return tabled in the House of Commons in reply to a question by Hennes Desautels (Lib., St. Mary).

### Additions To Air Force

Ottawa.—A total of 296 officers and men were taken on the Royal Canadian Air Force during the years 1932 and 1933 inclusive, a return tabled in the House of Commons said. Of this total 32 were officers and 244 men.

## Federal Government Given Many Ideas To End Unemployment

Ottawa.—Private members of the House of Commons bombarded the government with a variety of suggestions for ending unemployment.

The discussion came up on a resolution proposed by Grant MacNeil (C.C.F., Vancouver North), who proposed the Dominion should assume full responsibility for unemployment relief, institute a large public works program, increase the standard of direct relief and raise money by high taxes on incomes over \$10,000.

An extensive back-to-the-land movement was the favorite idea of E. H. Brunelle (Liberal, Champlain). He proposed the government should spend money improving idle land and

### Protest Against Price Boosts

Manitoba Government Asked To Look Into Machinery Costs

Winnipeg.—The Manitoba government was charged to consult with the Dominion administration with a view to bringing the price of agricultural machinery down "to what they were under the Bennett regime."

Quoting from price lists to show that the cost of farm implements was substantially increased this month, A. R. Welch (Cons., Turtle Mountain) said in the provincial legislature it was the duty of Premier Bracken to press upon Ottawa the need of a 20 per cent. reduction in prices.

Mr. Welch cited 11 instances of increased prices, ranging from \$2 to \$42 effective February 1 on binders, seed drills, harrows and other machinery.

Douglas Campbell, Progressive member for Lakeside, also complained of higher prices for farm machinery. He stated that the Canadian-American trade agreement had resulted in lower prices for livestock and higher prices for farm machinery.

### Prospectors Report Gold Find

Inch Wide Veins Discovered In Flathead District, B.C.

Cranbrook, B.C.—Coarse gold—veins an inch wide—has been discovered in the Flathead district in the extreme southeast of British Columbia, hardy prospectors reported here as they hastened into Cranbrook to record their claims.

Despite the extreme cold weather of the last month lively staking activity has been going on in the district for the last 10 days. The scene of the rich find is Grizzly Gulch, a tributary of Aknamuk Creek. It is in the Rocky Mountain range just north of the international line and just west of the Alberta-British Columbia boundary.

### Japs Hold British Writer

Have Not Given Any Reason For His Arrest

London.—Japanese military authorities refused to release Gerald Sampson, well-known British journalist and writer, whose arrest in Tokyo was confirmed by the foreign office.

Two requests made by British consular officials in Tokyo to see the imprisoned journalist and ascertain the reason for his arrest were politely refused with the suggestion that the request be renewed when complete order is re-established in the Japanese capital.

### Mail Falls From Plane

London.—The rear baggage compartment door on a Royal Dutch airliner became unfastened shortly after leaving Croydon for Amsterdam and a bag of parcel mail fell out, but was recovered and sent on later in the day.

### Refuse Tag Day

New Westminster, B.C.—The New Westminster city council has refused to grant the joint defence committee permission to hold a tag day here to collect funds for defence of relief camp strikers facing trial at Regina.

## Put Unemployed from the cities to work on the land, by conscription, if necessary. They should be given improved land and left to work out their own salvation without money grants.

Reforestation and housing were activities favored by Hon. H. H. Stevens. He believed these were self-liquidating works which over a period of years would repay the amount of money governments might lay out in providing employment.

At the same time Mr. Stevens agreed there was "a germ of sound truth" in the Social Credit theory. Monetary matters were to some extent responsible for unemployment.

## Cause Of Japanese Trouble

Blame Age-Old Oriental Organization For Tokyo Revolt

Shanghai.—It was learned on reliable authority here that an age-old organization known as the Showa was behind the coup in Tokyo. It said this organization had been revived last year as a fascist, militaristic body by Boumei Matsuoaka.

Matsuoaka, president of the South Manchurian Railway and formerly Japan's delegate to the League of Nations, said at the time he was reviving the Showa as "a moral, not a political, movement."

One of its characteristics is extreme veneration of the emperor.

The Showa has appeared from time to time as a force in Japanese affairs. It held considerable political influence in the 19th century but went out of existence when occidental influence began to penetrate the country.

Matsuoaka consistently has been a supporter of the militarist element in Japan. Outlining the policies of One Showa, he said last year it would oppose capitalism and parliamentarianism and would favor a corporate state with imperialistic aims.

### Elevator Men Strike

Lock Cars In Toronto Building During Rush Hour

Toronto.—More than 1,500 men and women were forced to climb from one to 21 floors in the Metropolitan building, Adelaide and Victoria streets, when elevator operators went on strike as the rush of office employees was at its height.

Between 10,000 and 15,000 persons use the elevators daily.

Elevator operators asked for an eight-hour day and a weekly wage increase of \$2.

Operators remained in their cars at the 10th floor, some playing cards, and refused to open the doors. They said food would be brought to them if necessary.

After keeping their cars locked for two and a half hours, striking operators again started their cars. No announcement of a strike settlement was made.

### Danish Aviators Killed

Were Hunting For Non-Existent Pilot In Storm

Copenhagen, Denmark.—Three fliers were killed in an attempt to aid a non-existent pilot.

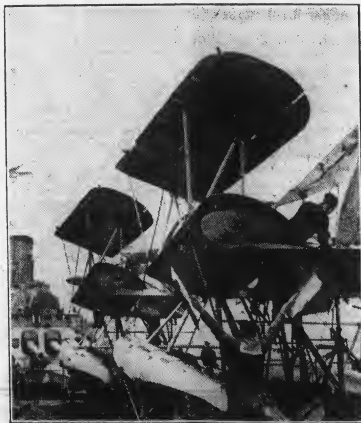

Sounds heard on the ground led to belief that an airplane was seeking a landing in a snow storm and the trio went up in one plane to escort it to safety.

After several hours authorities concluded the singing of snow-laden telephone wires in the strong wind caused the sound similar to an airplane engine. As word went out to recall the guiding plane the news was received it had crashed.

### Appointed To Senate

Ottawa.—After nearly 20 years in the House of Commons William Duff (Lib., Antigonish-Guyshoro), known among his familiar as "The Admiral," has been appointed to the senate. Prime Minister Mackenzie King announced the appointment, and said a by-election in Antigonish-Guyshoro would be held March 23 with nominations March 16.

### UNUSUAL SWEDISH CRUISER VISITS ENGLAND

The arrival at Gravesend, England, of the Swedish ship "Gotland" caused a good deal of excitement among the local inhabitants. The "Gotland" is a combined cruiser and seaplane-carrier with a displacement of 4,600 tons. She carries six 6-inch guns, six 21-inch torpedo tubes, and eight seaplanes. Our picture shows part of the "Gotland" with some of the seaplanes on the deck.

### DOMINION CHEMIST

Clifford H. Robinson, of the Central Experimental Farm, Ottawa, who has been promoted to the position of Dominion Chemist, Dominion Experimental Farms, Dept. of Agriculture. He succeeds Dr. Frank Shutt, who retired in 1933.

### Figures Are Well Up

More People Working Than At This Time Last Year

Ottawa.—The Dominion bureau of statistics reported a decrease in employment during January of more than 6,000 persons, but emphasized that the February 1 record was markedly better than that of the corresponding date last year.

The bureau reported 9,394 firms showed a total payroll of \$27,006 persons, 6,300 less than at January 1 but comparable with \$85,556 workers employed by 8,792 firms at February 1, 1935.

It noted improvement in employment only in British Columbia, and decreases in all other economic areas. In every area, however, it said, employment conditions were more active than at the corresponding time last year.

The bureau said the trend of employment was downward in Quebec city, Toronto, Ottawa and Winnipeg, while in Montreal, Hamilton, Windsor and Vancouver the tendency was favorable. Employment in each of these centres was at a higher level than at February 1 in 1935, 1934 or 1933.

### Choosing Air Mail Bases

Test Flights Over Proposed Routes Will Be Made

Ottawa.—Test flights over the various proposed routes for a north Atlantic air mail service will determine the bases to be established on this side of the Atlantic, a delegation from Sydney was told by officials of the post office department.

Tests of the north Atlantic route will be carried out in the next two years, using the various proposed routes linking the United States with England by way of Newfoundland and some point on the Canadian Atlantic seaboard.

### Would Use Oil Embargo

London.—The executive committee of the League of Nations Union, which last summer secured 11,000,000 votes for league support among the British public, demanded imposition of an oil embargo on Italy, if such a step will be found capable of terminating the war in East Africa.

## Party Leaders Agree More Help Required To Assist Premier

### Relief Camp Policy Changed

Government Hopes To Have Them Closed By Dominion Day

Ottawa.—Closing of relief camps throughout Canada by Dominion Day is the objective of the government, Hon. Norman McLeod, minister of labor, announced. Present strength of the camps will not be increased. There will be no new admissions.

In a statement to the House of Commons the minister said: Arrangements have been made with the Canadian railways to employ 10,000 men on deferred maintenance work the coming summer.

Men taken from the relief camps by the railways will be on a basis of work and wages.

The additional railway maintenance work will be undertaken by the government and railways on a co-operative basis. An emergency supplementary estimate will be introduced in the house to cover the government's share.

While relief camps remain open, projects will be continued under the department of national defence, working in close co-operation with and carrying out the policy of the labor department.

Co-operation will be encouraged between provinces and Dominion in working out more intensive application of the farm placement scheme.

Allowance of 20 cents a day in the relief camps will be increased to \$15 a month, as from March 1. All other allowances, such as food, clothing, tobacco and medical care will remain the same.

The monthly allowance of \$15 will be paid out as follows: \$7.50 in cash, the other \$7.50 being set aside until such time as the man leaves the camp when he will receive non-negotiable vouchers payable at the rate of \$4 a week at any post office, for the total balance standing to his credit. This ensures that if a man leaves a camp of his own free will he will at least have some means of support while he is seeking industrial re-establishment.

### Would Let League Decide

France Willing To Have Ruling On Pact With Soviet Union

Paris.—France stands ready to go before the world court with Germany to decide whether the Franco-Soviet mutual assistance pact violates the Locarno treaties, Foreign Minister Pierre-Etienne Flandin told the chamber of deputies.

M. Flandin made the offer in the course of his first important chamber speech, urging ratification of the pact with the Soviet Union as a necessary step in the creation of collective security.

He denied the pact could be interpreted as a military alliance, adding, however, that governments naturally discuss military conditions under which they would exchange assistance.

"We would be unjust to forget that Russian arms contributed to the victory of the Marne," he told the deputies.

### Russian Scientist Dead

Moscow.—Ivan Pavlov, noted Russian physiologist, is dead at the age of 87. Pavlov was famous in scientific circles for his researches with digestive organs and in methods of treating animals. For his work in this connection he was awarded the Nobel prize in 1904.

Ottawa.—Increasing burdens imposed on the prime minister necessitate more expert assistance in the prime minister's office, the House of Commons was told. Prime Minister Mackenzie King and former Premier Bennett were in full agreement on the matter as the house passed an increased money vote for the office.

The vote for next year is \$41,901 for salaries, compared with \$28,530 last year, and Mr. King explained the increase provides an additional \$10,000 to pay salaries for additional help.

It would make possible the organization of the office in "a more businesslike way" and provide more effective administrative machinery. The office needed one or two highly trained experts who could help in preparing material on economic and other technical matters.

Mr. Bennett congratulated Mr. King on his decision to maintain more help. His own experience in the office was that the duties were onerous a prime minister had little or no time to consider carefully the large matters he was called upon to deal with or to reflect and meditate "except when he talks to himself walking up the hill."

Correspondence alone had doubled in volume in the last five years, said Mr. Bennett, and Mr. King agreed, saying he was particularly impressed with the volume of letters and appeals in connection with trade matters due to the recent expansion of trade restrictions and quotas by most countries.

The two leaders also agreed the time had not yet arrived for separating the post of secretary of state for external affairs from that of prime minister. Mr. King said he thought the prime minister would have to read all the despatches from foreign capitals whether or not he was in direct charge of external affairs, and this in itself was an onerous task.

Canada was not as fortunate as older countries in having a highly trained group of career men in the public service, Mr. Bennett thought. To develop such a reservoir it would be necessary to pay higher salaries and to magnify the importance of positions in the public service.

Support for larger expenditures on assistance for the prime minister was expressed by J. S. Woodsworth, C.C.F. leader. He thought the office could not be too fully organized and that too much pains could not be taken in getting trained men.

### Personnel Has Been Chosen

Royal Commission Will Investigate Penitentiary System In Canada

Ottawa.—Personnel of the royal commission which will investigate Canada's penitentiary system has been practically completed.

It is understood the board will be a three- or five-man commission, probably the latter, and the terms of reference will call for an exhaustive study of conditions in all Canadian penitentiaries with evidence taken at each institution.

### Valuable Coal Production

Edmonton.—Coal valued at \$12,440,616 was produced in Alberta during the calendar year 1934—the latest for which reports are complete—it was made known by the report of the provincial department of lands and mines, filed for legislative perusal by Hon. C. C. Ross.

## Britain Plans Separate Treaties For Powers To Limit Armaments

London.—Great Britain indicated to naval conference quarters she intends to propose a new plan to obtain a world naval limitation treaty through bi-lateral negotiations with other powers.

The move followed an announcement that the Italians are not prepared to sign a four-power treaty at present. The Rome delegation so advised the British government.

It was understood they were not ready to proceed until the question of sanctions against Italy is settled.

First discussions under the new plan will be with the Americans and Germans if they accept the idea.

Russia would probably be next approached, with Japan, France and Italy following.

The plan would be for each power to negotiate separately with the British and initial a draft treaty providing for the annual exchange of information on building programs and limitation of the sizes and types of ships.

The present four-power conference would be adjourned until after the end of the year. All bilateral negotiations are completed by then, all powers would meet here to sign the treaty they had initiated. The draft treaty would not be effective until the treaty was signed. 2140

**Sears Roebuck Will Spend \$9,500,000 On Press Advertising**

Chicago.—General R. E. Wood, president of Sears, Roebuck & Co., announced today that the company will spend \$9,500,000 for newspaper advertising in 1936.

"Results have demonstrated to us that the newspaper is by far the most effective medium for the promotion of our retail sales," G. W. Cunningham, advertising manager, said.

THURSDAY, MARCH 5, 1936

## NOTES AND COMMENTS

**RELIEF CAMPS** are to be closed by July 1, and unemployed men will be given work on railroad construction at a wage in advance of that paid in the camps. Whatever criticism may be levelled at the camps, an honest effort was made to solve the problem of caring for single men. Very much discontent was caused by agitators and the term of "slave camps." But it is hoped the new plan will prevent the dissatisfaction prevalent in the camps. No matter what type of work or plan is adopted for unemployed, the professional agitator will always be a vicious type fostering discontent.

**MOST INTERESTING** from a news standpoint was the budget of the Social Credit government. Sensible people will agree that Alberta must pay its way to maintain its credit throughout the Dominion and with other countries, but there are many who so implicitly believed that no increased taxation would be brought into effect, and that legislation enabling monthly dividends to be paid would be introduced, that keen disappointment is prevalent.

**THE PROMISES** made in the heat of an election campaign act much like chickens coming home to roost. They cannot be dismissed with a wave of the hand, and Major Douglas adds to the difficulties of the premier by disassociating himself from any contract to introduce a social credit plan in Alberta.

**INCREASED** Taxation on commodities bears most heavily on the working man, especially if he has a family to clothe and feed. Already there is a Federal sales tax on the goods he purchases, to which the provincial government proposes to add 2 per cent, making a total of 8 per cent—a heavy tax on the family expenditure. Had there not been such glowing promises of no additional money being needed, and non-negotiable certificates being issued to the value of \$25 monthly to every adult, disappointment would not have been so marked.

**HON. W. R. HOWSON** receives his reward as a Liberal leader and is appointed a judge. His public service entitles him to preferment, besides which he is qualified for high position on the judiciary. Those who heard him in platform utterances admired his level style of dealing with political issues, free from abuse and ridicule. It is unfortunate that the opposition in the provincial legislature loses such a good leader, especially at a time when good leadership is so necessary. Just how much truth there is in the report that George G. Coote will be selected as a provincial Liberal leader remains to be seen. Prominent Liberals hesitate to comment, pending something more definite than newspaper reports.

**SPRING-LIKE** Weather brings joy to many, but ardent hockey fans who wanted to see the Canadians in action here against the northern champions, are not so appreciative. Looking up weather records, as recently as March 9, 1933, temperature here registered 22 below zero. As this is written the thermometer shows 46 above zero, which plays havoc with ice, but you can never tell what may happen in 24 hours at this season of the year. It is hoped to again see the boys in action here, in their fight for the provincial championship against Lussac, but it rests in the lap of the Gods—or the weather.

**THIS YEAR** teams from mining towns have figured in semi-finals and finals. By the processes of elimination, the most northern team and the most southern team are competing for the right to play against Saskatchewan champions in the Allan Cup playdowns. In 1925 Coleman sent a team to Vancouver to defeat the B. C. champions, and they went east to Winnipeg (the farthest a Crow team ever went) where they dropped a two-game series to Port Arthur. They won the first game by 4-2, and lost the second by 5-1. But they were a doughty bunch, for they never played a sub throughout the games, because they hadn't any.

"Out in the Cold Again" was the theme song of Drumheller fans last year as Canadians sidetracked the Miners' championship ambitions, and the same theme song is just as appropriate this year as Canadians go merrily on their way to the Alberta finals over the frustrated hopes of Drumheller.

The new "Asia Express" Japanese built and operated, running between Dairen and Hankin in Manchukuo, is described as the fastest and most luxurious train in the Orient. It is air-conditioned and runs on a schedule of 511 miles an hour.

The advantage of a Remington portable typewriter is that it can easily be carried anywhere and is instantly available for writing at home or on the train. The Journal is the local dealer for this machine of world-wide reputation, and will gladly give prices on the various styles which run from \$45 up. You will get the greatest typewriter satisfaction with a Remington.

"Just suppose you don't chatter at me every time you think of nothing to say," blurted out the busy office man to his embryo secretary.

"There really is so much of  
goodness in this world of ours that  
it seems a pity that so many people  
cannot find more of it. There is  
enough of interest within a city  
block to make happy the reflections  
of one who correctly views them.  
Why aren't more children really  
taught to see goodness?"—G. R. A.  
in Birmingham (Mich.) Eccentric.

## Local News

Mrs. James Fraser and daughter, Patricia, are visiting with Mrs. Fraser's parents at Lethbridge this week.

J. C. Cullen of Calgary succeeds Robert Cardinal on the local staff of the Bank of Commerce.

Mrs. George Graham was among the hockey fans who attended the game at Drumheller on Monday.

Mrs. A. May, who has been visiting at the home of her daughter, Mrs. J. R. Kerr, returned to Medicine Hat on Tuesday.

Joe Tufeland of Lethbridge and Alex Galbraith of town, were winners of the hockey sweeps at the Grand Union on Saturday and Monday winning \$68 and \$40 respectively.

Joe Plante was at Macleod on Monday as a witness in a court case in which a Blairmore man was tried for horse stealing. While in Macleod Joe states that a large number of cars from Macleod and district left for Drumheller to see the hockey game between Canadians and Miners.

Coleman Elks Lodge rendered a much appreciated kindness in meeting the expense of sending Fay Grant, 11-year-old daughter of Mr. and Mrs. L. C. Grant, to Lethbridge for medical treatment, and her parents wish to express through The Journal their heartfelt appreciation to the Elks Lodge. Fay has gained eight pounds since going to Lethbridge.

The co-operation of the Texaco Company in allowing their regular time on the broadcasting station to be used for the Drumheller vs. Coleman hockey game on Monday evening was appreciated by thousands of people in southern Alberta. The play-by-play as announced from the rink side proved almost as exciting as if at the rink.

### Notice Re Sunday Funerals

The ministers of the Pass towns earnestly ask the co-operation of residents in eliminating Sunday funeral services, except under very exceptional circumstances. Such co-operation generally observed will obviate the necessity for any minister to be embarrassed by a refusal in any particular case.

Signed: John Wood, A. S. Partington, A. E. Larke, Richard Upton, Roy C. Taylor, William Dutton.

## Here and There

Vancouver is holding this year the Golden Jubilee celebration of its founding in 1886. Some of the features planned include sports events of all kinds, music, pageants, a special performance of Shakespeare's "Midsummer Night's Dream" in Stanley Park, a performance of Hiawatha, an Indian village, a Hawaiian village, special decorations and illuminations all over Vancouver. Celebrations will reach their peak in the first ten days of July.

At the annual Burns dinner held at the Empress Hotel, Victoria in February at which over 300 Burns lovers took part, the royal Scotch bagpipe was brought over from Vancouver and was carried in steaming hot on a silver platter by Miss Owen Dewar and piped around the Empress dining room by Pipe-major Donald Cameron. Greetings were received from South Africa, Australia, the United States and London, England.

Stating emphatically that success depends on luck, Captain Charles M. Hudson, D.S.O., and Bar, R.N.R., commander of Q-boat for two years of the war, had a hard job convincing the Active Club International at Hotel Vancouver recently of the entire truth of the statement. They thought that skill, courage and foresight had something to do with success after hearing some of his adventures.

Recently the Royal York Hotel, Toronto held a Cherry Pie Contest wide open to everybody and gave ten prizes in order of merit and the good housewives of the Queen City were all agog. The judges of course had their work cut out for them—or may be they did a bit of cutting for themselves.

"It is a pity every British Columbia business man can not find it possible to visit the Far East, particularly Japan," said C. A. Cotterell, assistant general manager, British Columbia, for the Canadian Pacific Railway, just back from a trip to the Orient. Mr. Cotterell thought a visit would be an education, enlightening and of inestimable value in a practical sense.

Two prominent British residents in Kobe are fighting a losing battle against a sacred pine tree which they fear is about to fall on their residence, according to passengers arriving in Victoria recently on the Empress of Japan. They can't get it felled because it is believed if that is done, a pestilence will strike the district.

The Canadian Pacific's biggest liner, the 42,500-ton Empress of Britain, to be designated "cabin" ship following the abolition of "First class" designation by the North Atlantic Conference, will continue in operation as a high class, high speed, de luxe liner. William Baird, steamship passenger traffic manager of the Canadian Pacific, said recently.

At one end of the Dominion the Eastern International Dog Sted Derby at Quebec, Feb. 20-22 hit the high spots in winter sport and at the other end was the Empress Golf Tournament at Victoria, February 17-22, both sponsored by the Canadian Pacific Railway and each showing the versatility of the Canadian climate, since both were indubitably and entirely successful.

Skating has reached unprecedented levels this winter with an average of 5,000 skaters taking week-end trips from Montreal to nearby mountain resorts all season and with similar figures available from all over the Dominion.

It has been said of Spinoza the philosopher: "The simple folk had loved him as much for his gentleness as the learned men had honored him for his wisdom." We may not earn the latter regard of our fellows.

Lloyd & Randall, Proprietors

## In Memoriam

IN LOVING MEMORY OF Dear Mother, who passed away March 10, 1934 at Creston, B. C.

Three little words "Forget me not" Don't seem much, but mean a lot. Just a memory fond and true To show, dear mother, we think of you. —Ever remembered by Mr. and Mrs. William White and Arthur.

IN LOVING MEMORY OF Dear Mother who passed away March 10, 1934 at Creston, B. C.

God saw the road was getting rough And the hills were hard to climb, So He closed your weary eyelids And whispered "Peace be Thine." —Ever remembered by Mr. and Mrs. Sam Moores and family.

## LOCAL AND GENERAL

R. Morton of Red Deer is the guest of Mr. and Mrs. Wyndham Jones.

Wyndham Jones contributes this: "Who's afraid of the big Bud Wolfe?" Coleman's theme song after trimming Drumbeller.

An attempted burglary was made on George Nell's store early Wednesday morning. Entry had been attempted through the front door.

Mrs. Fraser McLeod and family arrived Wednesday afternoon at Coleman from Lethbridge to take up permanent residence here. Mr. McLeod was recently appointed master mechanic at International mine.

A man attempted to hold up a grocery store proprietor at Arran, Sask. He had the store-keeper covered, but did not reckon on his wife, who, with a well-aimed can of tomatoes, knocked out the would be thief.

Fire shortly after 2 a.m. Thursday morning at McGillivray tipple compelled cancellation of mine work for the day, but it was stated work would be resumed on Friday. Investigation into the cause is proceeding. No report as to damage has been made by the company.

Journal classified ads. are so effective that an article advertised was claimed before the mail edition reached the post-office. This is almost as good as the store clerk, asked if the eggs were fresh, replied: "Sure, look at the date on them; it's a week ahead."

## Ad. Competition

In the display advertisements there is an intentionally misspelt word. The only rules of the contest to win a dollar are that contestants must write the wrongly spelt word and then the correct word, stating which ad. it is in, seal in an envelope and leave at The Journal office letter box. The first correct answer from those received will be awarded a dollar. Contest open till Monday afternoon.

## THRILLS—AND A THRILL!

In addition to hockey thrills at last Saturday's hockey game, the big crowd got another thrill when the noise of a small valanche of snow sliding on the roof of the rink made people shudder wondering what was happening. But the game went on, and so intent were the players in battling for a decision that it is doubtful if they noticed it. But it gave the people a scare for a moment or two. A word of praise is due to the rink management for keeping the ice in such good condition during the warm weather which started two days ahead of the game.

## ANNOUNCEMENT

Mr. Melville Anderson, of Anderson & McLean, eight specialists, Calgary, announces his next visit to G. R. Powell's, Coleman, on

THURSDAY, MARCH 19th, 1936 20 years' experience and regular visits assure you of satisfaction in all optical work.

—Usually you will find the real shopping opportunities advertised in The Journal.

WORLD HAPPENINGS  
BRIEFLY TOLD

Sir Alexander Cadogan, British ambassador to China, was named under-secretary for foreign affairs in orders approved by King Edward VIII.

Roger Mariotti, 45-year-old workman of Montreal, was fatally injured when an icicle weighing about 100 pounds fell from a roof edge and struck him on the head.

British Columbia's extended winter has reduced logging operations in the coast area to 40 per cent of normal, logging officials at Vancouver said.

Paul Valery, French academician and poet, has been appointed president of the permanent committee of arts and letters of the League of Nations.

The German Protestant Church stood shoulder to shoulder with Catholics in the Reich to fight Nazi domination of the education and training of its youth.

Coarse gold—in veins an inch wide has been discovered in the Flathead district in the extreme south-east of British Columbia, hardy prospectors reported at Cranbrook, B.C.

British authorities denied reports the British government was considering a peace plan with Italy and France by which each of the three countries would receive a part of Ethiopia.

Host to thousands of summer tourists from all parts of Canada and the United States, Fred L. Kolb, manager of the Athabasca hotel at Jasper, Alta., died recently from a heart attack.

George P. Decker, 74, legal champion of Indian tribes of Canada and the United States in their contests to maintain their treaty rights, died in a Rochester, N.Y., hospital recently.

## A New Type Camera

Used For Early Detection Of Hardening Of Arteries

A camera which detects and records the first small "explosions" of arteries in the human body, which later may result in death, was announced by the Cleveland Clinic Foundation. Developed by Dr. A. D. Rudemann, of the department of ophthalmology, and V. B. Seitz, mechanical engineer, after three years of work, this camera is a new tool for the early detection of changes in the arteries, especially hardening, a condition common among old persons. The complex camera photographs the capillaries of the eye, and reveals hemorrhages and ruptures which are not visible otherwise.

## Royal Approval Required

The king has seen his likeness as it will appear on new British coins. Sir Robert Johnson, deputy master of the Royal Mint, presented a plaster cast of the king's face which will be used to make dies for both coins and medals. Royal approval is required before a cast can be used.

In each pound of flour you buy there are more than 100,000,000,000 separate particles. Cornstarch contains 11,000,000,000 separate particles to the ounce.

Rats have no organs for producing sweat, so sunlight and heat are fatal to them.

## War Produces New Hat

Dashing Headgear Makes Its First Appearance In Paris.

Paris has a new hat inspired by the war in Ethiopia. A Bersaglieri hat trimmed with the traditional cock feathers, has made its appearance in the Rue Royale. It was worn by a tall, middle-aged woman, who carried the dashing headgear with great dignity. It is predicted that Bersaglieri hats will be as popular as they were in 1919 when a regiment of Bersaglieri was quartered in Paris.

## Feel Tired? Backache?

FOR young girls growing into womanhood, for women in middle life going through the "change" or those who suffer from headache, weakening drains, backache and nervousness, Dr. Pierce's Favorite Prescription is just the vegetable tonic needed. Mrs. Robert Bryant of 11 Glenville Ave., Bradford, Ont., said: "What wonderful medicine Dr. Pierce's Favorite Prescription is for me. I feel it proved so in my case. I felt tired and weary and had such pains across my back and in my sides. Dr. Pierce's Favorite Prescription soon restored me to good health. I feel fine, as only a healthy person can."

Buy of your neighborhood druggist today.

Now Science Explains  
Why So Many People  
Past 40

Feel That They're Slipping  
Losing Their "Grip" on Things

Many people 'round 40 think they're 'growing old.' They feel tired a lot... "weak." Have headaches, dizziness, stomach upsets.

Well, scientists say the cause of all this, in a great many cases, is simply an acid condition of the stomach. Nothing more.

All you have to do is to neutralize the excess stomach acidity.

When you have one of these acid stomach upsets, take Phillips' Milk of Magnesia after meals and before going to bed. That's all!

Try this. Soon you'll feel like another person! Take either the familiar liquid "PHILLIPS'" or the convenient new Phillips' Milk of Magnesia Tablets. Made in Canada.

ALSO IN TABLET FORM: Phillips' Milk of Magnesia Tablets are now on sale at all drug stores everywhere. Each tiny tablet is the equivalent of a teaspoonful of Genuine Phillips' Milk of Magnesia.

PHILLIPS' Milk of Magnesia

## New Function Of Lungs

Rochester Scientist Discovers That They Create Platelet Cells

A new and apparently important function of the lungs in creating platelets, tiny cells numbering 1,500,000 to a drop of blood in a normal person, was discussed before Rochester physicians by Dr. William H. Howell, former dean of Johns Hopkins Medical Faculty.

The 76-year-old physician and retired director of the university's school of hygiene and public health discussed the little-known third variety of corpuscles and their function in aiding the blood to clot.

Medical science has discovered that persons with a deficiency of platelets in their blood suffer from thrombocytopenia or frequent hemorrhages of the skin, he said.

Dr. Howell announced he had discovered that blood leaving the lungs is richer in platelets than when it enters. In passing through other organs, he explained, the blood loses some of the tiny cells.

This would seem to indicate, he said, that there is another and entirely unknown function of the platelets themselves.

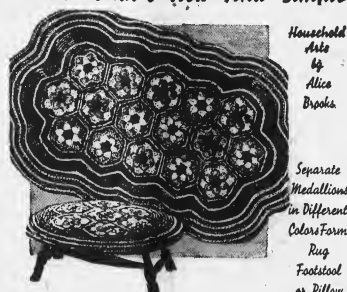

## The Latest Invention

Postcards Will Talk When Placed On A Phonograph

Talking postcards have been invented by George Harrison of Hampton, England. His new microphone, amplifier and recorder make talking pictures on an ordinary phonograph. The film is laid over the photograph, which can be sent through the mail and played on a phonograph. The cost of recording a six-inch disc is 25 cents.

Where operations are concerned, doctors, nurses, actors, clergymen, and persons with artistic temperaments usually are poor patients.

## Crochet That's New And Simple

PATTERN 5544

"Can anyone do it?" Most assuredly, says Alice Brooks, who has designed this lovely rug, a matching foot-stool top and pillow for quick crocheting. Easy six-sided medallions are done one by one, each flower a different color with background uniform or not, as you please. Sew them together and you're ready to begin the border crocheting, going round and round with stripes of color used to break the background. Rug wool, rug or candlewicking may be used.

In pattern 5544 you will find complete instructions for making the rug shown; an illustration of it and of all stitches needed; material requirements; color suggestions.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 115 McDermott Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

## SUNDAY SCHOOL LESSON

MARCH 8

JESUS TEACHES NEIGHBORLINESS

Golden text: Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy strength, and with all thy mind; and thy neighbor as thyself. Luke 10:27.

Lesson: Luke 10.

Devotional reading: Matthew 5:38-48.

Explanations and Comments...

The Question of a Lawyer About Securing Eternal Life, Luke 10:25-29. A certain lawyer tested Jesus, tried to trip him, with his question: "What shall I do to inherit eternal life?" His was the legalistic point of view, that eternal life would be the reward of special acts. What fasts and prayers and sacrifices, he meant, could he do to win life eternal. "What is the result of your poring over the Law?" Jesus questioned in his turn, and the lawyer, guided in answer Deuteronomy 6:5 and Leviticus 17:18, "Thou has answered right; this do, and thou shalt live," said Jesus. The man's knowledge was correct, but what of his putting his knowledge into practice?

The Parable of the Good Samaritan, Luke 10, 29-37. Desiring to justify himself, to show that he had not asked a question so simple that it could be quickly disposed of, the man asked "And who is my neighbor?" Before Jesus was through with him, the lawyer had little ground on which to "justify himself" in any respect.

The lawyer expected Jesus to answer that his neighbor was an Israelite. Jesus turned his question around, and answered the much more important question, Whose neighbor art thou? by telling the parable which we call the Parable of the Good Samaritan.

The priest and the Levite who came when the man lay by the roadside whom the thieves had beaten and left there, probably would have gone to his aid had he seen one of their own class, but he was only an unknown man who had no claim upon them. From priest and Levite, men who, because of their office and position, were bound to show mercy to any of their own race in need, the wounded man must have expected help. But in all probability, as has been suggested, the priest had been from ministering in the temple, and felt that it was enough to perform his official duties, those for which he was paid, and that no further obligation rested on him. Priest and Levite passed by on the other side.

Next time came that way a certain Samaritan, one whom Jews despised, and he was moved with compassion led him to bind up the man's wounds put him on the beast which he had been riding, and take him to an inn where he cared for him that night.

## R.C.M.P. Medals

Eight Veterans Receive Recognition For Long Service

Superintendent T. V. S. Wunsch and Staff Sergeant G. P. Pavely, both of Ottawa, were among eight veterans of the Royal Canadian Mounted Police Force who were decorated with long-service medals at a ceremony in the new police headquarters at Edmonton. The decorations signified 20 years or more of service. The other medalists, all Albertans, were Inspector P. H. Tucker, Sgt. R. G. Johnson and Sgt. A. Ford, Edmonton; Corporal J. H. Corbett, Wainwright; Lance Corporal J. E. Jones, Lamont, and Constable Wm. McKay, Athabasca.

Arterial roads of England may be lighted at night at a cost of \$45,000 for lamps and over \$2,000,000 a year for maintenance.

6 cord SPOOL COTTON

## Must Have Special Education

Princess Elizabeth Cannot Lead Life Of Ordinary Child

People of the United Kingdom are talking seriously about the kind of Queen Elizabeth of York will be, and when, she is called to reign as Elizabeth II.

Public concern is centred more than ever upon this nine-year-old girl, who by the death of King George has been raised to a significant position in contemporary history.

With Edward as monarch, Elizabeth assumes second place in the line of succession. She ranks after her father, the Duke of York, but what is more important she represents the second and not the third generation as usually in the case of royal children in British history.

So concerned is the government over the future, that the cabinet considered Elizabeth's education, it is understood, what she has the family of Windsor in royal convalescence.

King George when he was living, and Queen Mary, the present King and the child's mother and father.

The Duchess of York at first asked that the little girl be sent to a private school where she might receive the normal education of an English girl of the upper classes. But the others persuaded her Elizabeth must be educated to assume the crown of Britain, and Queen Mary herself has undertaken to teach etiquette and diplomatic convention to Princess Elizabeth Alexandra Mary.

Michelangelo was essentially a sculptor and painted only occasionally.

## Proud Of Indian Blood

Grey Owl Gives It Full Credit For

"My white blood only gave me the English language," Archie McNeill, noted beaver conservationist, named on the passenger list as "Grey Owl," said on his return from England where he has been lecturing for five months.

Known as the friend of the beaver, Grey Owl has written several books on the wild life of Canada.

"It is because I am an Indian, not that I wish to belittle the small amount of white blood in me, that I have made a success of my study of nature," he volunteered before he embarked at Halifax for Beaver Lodge on Lake Kinsmen, where he is in charge of the wild life sanctuary of Prince Albert National Park.

The first law of repartee—better never than late.

NO MORE  
Stomach Trouble!

Now can eat anything without pain or after-effects.

"For a long time I suffered badly from indigestion. I tried many remedies but got worse until I started Fruit-A-Tives. Then it was not long before I was entirely well and could eat anything without pain or after-effects!"—so says Mr. S. Sansone, Toronto, Ont.

Fruit-A-Tives are a famous doctor's prescription. They contain concentrated extracts of APPLES, ORANGES, FIGS, PRUNES and HERBS. That is why Fruit-A-Tives act naturally to bring all the organs of elimination to healthy, normal action... why they bring, not temporary, but lasting relief.

### A Long-Lived Race

Inhabitants Of Eastern Shores Of Black Sea Live To Great Age  
The government of Abkhazian, a Soviet republic on the eastern shores of the Black sea, has started an investigation to find out why many of its citizens reportedly live to be more than 100 years old. The republic of Abkhazian is a small mountainous territory whose population is made up largely of farmers and sheep raisers. One of its citizens, Adiche Mazhagva, was reported to have reached 150 years of age in possession of good health, good memory and excellent sight.

### Instant Relief From ITCHING

Its gentle oils soothe the irritated and inflamed skin, thus easing nature itself to heal the disorder. No fuss—no mess. Clear, greaseless and stainless—dries up itching immediately. Stops the most intense itching instantly. A \$3.00 trial bottle, at drug stores. Prescriptions money back. D. D. D. Prescription is made by the owners of ITALIAN BALM.

## FLEMING'S FOLLY

—BY—  
LAWRENCE A. KEATING

### SYNOPSIS

The story opens with Link Fleming addressing a meeting of Boone County cattlemen, called together with the object of forming an irrigation company.  
Roper Kilgo, the boss of the Rawhide and nearby ranges, who seemed to approve the plan, but was really opposed to it, had forced Roper Kilgo, a derelict mining engineer, whom Kilgo knew would be called upon to give his expert opinion in favor of the scheme, to reverse his earlier endorsement, and declare that irrigation in Boone county so far as Fleming's plan was concerned was only a new-fangled way to waste money.  
The meeting terminated, but Buzz Hamilton and his sister, Helen, Link and Kilgo stay behind and Helen asks Fleming questions about his irrigation plan. This angers Buzz, who accuses Fleming of trying to influence his sister and, as he asserts, ruin his "spread". Buzz shoots at Fleming in an uncontrollable fit of anger, but Buster Townsends, who is shot in the stomach, and Fleming is uninjured. Buzz is arrested and sentenced to three years' imprisonment.

Helen and Fleming form a partnership to provide irrigation for their own properties.  
Fleming goes home and studies the plans drawn by Torney to learn whether they could be adapted to a smaller scheme suitable for his and Helen's land, and is satisfied it could be done. Feeling cold, he lights the fire and there is an explosion that wrecks the house, burns it and the plans and renders Link unconscious. He is rescued from the blaze by an employee.

(Now Go On With The Story)

### CHAPTER VIII.—Continued

He started after. "Aw, Helen! It's only that I feel bad about you getting busted on Fleming's fool idea. I'll come along and carry your things. Say, I always had a weakness for you, and that's why I'm afraid about this crazy water scheme—"  
"I need salt," she mused, "and some canned goods. You may carry them if you really like it. She tripped into the odorous general store with Roper at her heels.  
Down the street Sheriff Stephen fingered grayish stubble on his chin. "If Buzz Hamilton turns over a new leaf, it'll show a prize me. You're taking a big responsibility. Link, gettin' him paroled to you."  
"Maybe I am. But it's going to please Helen a lot. Always makes her feel bad to think of Buzz in prison."  
"Huh! Tried to kill you, didn't he? Buzz was always wild and scarcely ever without too many drinks under his belt."  
"True. But perhaps six months behind stone walls have taught him a lesson. Anyhow," the rancher went on as he glanced about for Helen, "don't mention that he's due on the stage to-day. I want to make it a surprise. Gosh, if you were a girl and your brother was in prison, I reckon you'd feel good to have him paroled, eh?"  
Ames grunted, unable to picture himself as a girl. "Buzz is no good even if he is her brother, even if Jim Hamilton was about as square a guy as this county ever saw. No, sir, Buzz is just narrowly weak, always was an' always will be!"  
Fleming grinned indulgently and, sighting his partner in the Silver Creek Dam project, started down the sidewalk toward her. Kilgo followed from the general store carrying the girl's purchases.  
"Stow them in my saddlebag, will you please, Roper?" she asked over her shoulder. "Link and I have to see Otto Pieper."

Their eyes met and they smiled. Fleming's look, however, changed to sober concern as they approached the door of the Stockmen's Bank. "If we don't talk Otto into this loan it's going to be hard to keep his works workin' on the dam. We're behind with the wages now, but I'm afraid to ask more'n eight hundred. Smile a few times extra, will you?" He sighed. "If Otto says no, we're busted—sky high and permanent!"  
Damp and gloomy, the bank interior lay in silence but for the deliberate ticking of a clock on the wall. No one was in the place save Jimmy Farlane, the clerk, bent industriously over a huge ledger, and Pieper himself, seated at an oak desk in the rear. His sharp, weakened scrutiny lifted from a mass of papers as they approached, and his nod of welcome was curt and business-like.

"It's you two, eh?"  
Helen heart throbed faster. "Mr. Pieper," she announced, "we're here on a matter that means profits for your stockholders."  
His small, deep-set eyes appraised her shrewdly. "I suppose that foot irrigation scheme of yours is out of

cash again. Well, I don't see how I can do anything about it."  
Link tossed his sombrero before the banker and leaned forward, hands on the desk. "Otto, well, let you off easy to-day," he grinned. "All we need is eight hundred dollars."

The other stiffened. "Do you think this is the United States mint? Eight hundred dollars?" he repeated. "On what security, young fellow?"  
Helen and Link exchanged looks. "Well," he answered, starting at the back of his hand, "we thought maybe second mortgage."

Pieper lifted an accusing forefinger. "You know very well I turned you down twice on a second mortgage on either your property or Helen's. Isn't worth enough. This bank will take no such risk while I'm president!"

"Don't get mad, Otto. I—"  
"Let's waste no more time: I'm very busy to-day," he said. And the wiry banker busied himself with papers on his desk.

Helen's heart sank. Fleming looked at her, then moistened his lips. "You don't care about a second mortgage, maybe we could fix up some kind of note. I'd like to keep business at home, rather than take it over to that new bank at Atlas."

Pieper sighed like a man resigned to waiting a half hour. "What's the money for? Thrown' away on that day-dream of yours? Eh?" His thin rappling tones carried through the silent bank, and Helen saw the clerk pause in his work to listen.

"I tell you," the man went on, drumming skinny fingers on his desk, "it's nothing but sheer foolishness. Trying to make hundred-dollar-amount hand out of old sand that isn't worth fifty cents! I've warned you, Fleming, time and again. You too, Helen Hamilton, and if your father was here he'd turn you over his knee. He'd paddle you where it'd have the worst effect. Mighty good thing, too!"

Blushing, she shifted uncomfortably at knowledge that Link was grinning.

"How about the eight hundred?"

"I can't tie up money in frozen assets!"

"Why, eight hundred's a trifle, and you know it, Otto," he added persuasively, "we might be here asking twice as much, but we decided to get along somehow. Trouble is, the heavy rains lately force us to work faster, hire more men to get the dam completed."

"But, it's going to be wonderful!" he hurried on as the other parted his lips to speak. "We'll raise four crops of alfalfa a year, think of it! Anything'll grow there, Otto—small grains too!"

(To Be Continued)

### Showing An Increase

Occupied Farm Land Values Are Higher This Year

A considerable increase was shown in the average value per acre of occupied farm lands including improved and unimproved land together with dwelling houses, barns and other farm buildings during 1935 compared with 1934, according to a report issued by the Dominion Bureau of Statistics.

British Columbia was the highest with a value of \$60 against \$58 the previous year, and Ontario at \$42 compared with \$41. Values in other provinces with previous years in brackets follow: Quebec \$41 (\$34); Nova Scotia \$31 (\$27); Prince Edward Island \$31 (\$34); New Brunswick \$25 (\$24); Manitoba \$17 (\$17); Saskatchewan \$17 (\$16); Alberta \$16 (\$16).

### Anti-Aircraft Guns

Swedish Invention Can Deliver Bullets At Rate Of Two In A Second

Bofors, Sweden's great munitions plant, has delivered to the Swedish navy a new-designed anti-aircraft gun, capable of maintaining uninterrupted fire, the newspaper Svenska Dagbladet declared.

The new Bofors gun has a capacity of 120 rounds per minute and can be fired while the ammunition belt is being changed, the newspaper said.

The newspaper also said the Bofors' new machine-gun can fire 120 bullets per minute.

Maiden Voyage In May

The Zeppelin company at Friedrichshafen, Germany, has announced that its new ship, the "LZ-129", will make its maiden flight from the new airport at Frankfurt-on-Main to Lakehurst, N.J., starting May 6. The "LZ-129" will carry passengers, mail and freight and will make a second flight the same month.

Eskimos in the Arctic are now busy trapping white foxes. 2140

Uses Only Automobile On Island Of Irish Coast

If present speed limits irk you, think of Dr. Francis Gallagher, who has just introduced an automobile on the lonely windswept isle of Arranmore, off the Donegal coast of Ireland. "We have arranged with Dr. Gallagher that he shall not drive in excess of five miles an hour, and that there shall be no driving at night," said a native. The 600 islanders, the majority of whom have rarely left the island, are not pleased about this "new-fangled" invention.

"The island is nine miles long and five broad," the doctor explained, "and the 200 donkeys seem more like 2,000 when you try to drive past. Surfacing is so terrible that my tires must only be semi-inflated."

### Story Of Last Coronation

Rare Book Now Owned By United States Library

A truly royal description of the pattern to which the coming coronation of King Edward VIII. will follow is the "new-fangled" invention of the United States congressional library at Washington.

Bound in fine leather and purple silk, pages edged in gold, bearing the royal monograms of King George V. and Queen Mary, it is the complete story of their coronation, done with their approval and presented by them to the Czar Nicholas II. of Russia.

The book was a part of the Czar's private library at his winter palace. After the upheaval of 1917, the library became state property.

### Claim Of Inventor

New Material To Make Warships Immune To Shells

Lester Barlow, inventor of Stamford, Conn., says he has devised a material possessing shock-absorbing characteristics which would make warships virtually immune to explosives.

Barlow, inventor of a type of depth bomb used in the Great War, declined to disclose the nature of the material.

Barlow was ready to offer use of the material to the United States government as a "lever" in effecting world-wide reduction of armaments.

### Takes Money To Eat

Exchange Regulations In Russia Boost Price Of Food

New Soviet exchange regulations have gone into effect which indicate that the rush of bright young things to Moscow next summer may be somewhat abated; that is, if the B.Y.T.'s still remember that even in Russia it takes money to eat.

Under the new rules, here are some price equivalents at the Intourist restaurant in Moscow as reported by the New York Herald Tribune:

Smoked salmon (slice)..... \$1.40  
Boiled ham (with salad)..... 2.40  
Vegetable salad..... 1.60  
Swiss cheese (one slice)..... 1.10

In grocery stores white bread will sell at 60 cents a loaf.  
Some of the grand dishes who have been running Russian restaurants in this country must have sneaked back home with their price lists.—New York Post.

### Weigh Cosmic Rays

Photographic Scales Show Them Less Massive Than Supposed

A photographic scale which weighs cosmic rays was described to the American Physical Society at New York by Dr. W. F. G. Swann, director of the Bartol Institute, Philadelphia.

The scales showed the weights of the rays at the earth's surface. Those which penetrate the human body at the rate of dozens a minute, are far less massive than has been supposed.

The weighing process contradicts evidence set up by Dr. Arthur H. Compton of the University of Chicago, that most of the rays at sea level are protons. The scales show that instead they are nearly all electrons, less than 10 per cent being protons.

### Drought-Resistant Tree

Nursery Officials Recommend Green Ash For Shelter Belts

In the experience of the officials of the Dominion Forest Nursery Station at Sutherland, Saskatchewan, green ash is the most drought-resistant tree in the planting of shelter belts on prairie farms, and it also stands excess moisture well. Poplars and willows are among the least drought-resistant. Maples when planted by themselves seldom die on account of lack of moisture. Seedlings, cuttings and trees are distributed both from the station at Sutherland and from the Dominion Forest Nursery Station at Indian Head, care being taken to send out only those suitable to the soil, moisture supply, and climatic conditions of the various districts.

### System Has Been Changed

Canada Makes Banknotes Into Pulp Instead Of Burning Them

The Canadian Government now "boils" its old banknotes instead of burning them. Last year \$50,000,000 in common bank notes were dumped into a huge vat and boiled to a pulp, which was sold to paper-makers. Burning of old bills was abandoned as "wasteful" and because of the possibility of scraps of notes, partially burned being carried through chimneys to the outdoors.

Publishing a critical magazine is safe. The people sneered at it as always the ones who don't read it.

Desert lizards cannot tolerate excessively high temperatures.

## Find Out

From Your Doctor  
if the "Pain" Remedy  
You Take Is Safe.

Don't Entrust Your  
Own or Your Family's  
Well-Being to Unknown  
Preparations

BEFORE you take any preparation you don't know all about, for the relief of headaches, or the pains of rheumatism, neuritis or neuralgia, ask your doctor what he thinks about it—in comparison with "Aspirin."

We say this because, before the discovery of "Aspirin," most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of "Aspirin" largely changed medical practice.

Countless thousands of people who have taken "Aspirin" year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: "Aspirin" is rated among the fastest methods yet discovered for the relief of headaches and all common pains... and safe for the average person to take regularly.

"Aspirin" Tablets are made in Canada. "Aspirin" is the registered trademark of the Bayer Company, Limited. Look for the name Bayer in the form of a cross on every tablet.

## Demand and Get "ASPIRIN"

### Little Helps For This Week

The Lord thy God shall bless thee in all thy works, and in all that thou puttest thy hand to do. Deut. 15:10.

My place of lowly service too, Beneath Thy sheltering wings I am.

For all the work I have to do Is done through sheltering rest in Thee.

I think I find most help in trying to look on all interruptions and distractions to work that one has planned out for oneself as disciplinary trials sent by God to help us against getting selfish over our work. Then one could feel that perhaps one's true work, work for God, consists in doing some trifling thing that has been thrown into the way. It is not waste of time as we are apt to think, but it is the most important work of the day, the part one can best offer to God. After such a hindrance do not rush after the planned work, trust that the time to finish it will be given sometime, and keep a quiet heart about it.—A. Keaty.

### VICKS COUGH DROP

Medicated with Ingredients of Vicks VapoRin

FULL 2 1/2 oz. ONLY 15c

The invisible rays of the sun are the most deadly germ-killers known, according to Harvard University scientists.

## LET QUAKER NATURAL BRAN MAKE YOUR Baking MORE DELICIOUS ... MORE ECONOMICAL!

●The finest cooks everywhere have found the spicy, nutty flavour of Quaker Natural Bran makes their biscuits, muffins, cookies, etc., more delicious. They're always sure, too, of their results, because Quaker Natural Bran is especially intended for baking. It mixes quickly with other ingredients and rises lightly.

You can save beautiful Bran dishes more often now, because Quaker Natural Bran is so economical. You realize, of course, how beautiful Bran foods are for your family. Quaker Natural Bran helps to keep them well.

Order some today. Your grocer has it. A folder of delicious bran recipes and a valuable coupon in every package.

Look for the Quaker Natural Bran display in your grocer's. It has all the bran you need for the delicious recipes in each package.

## Local News

Constable Ed. Bernard, R.C.M.P. of Lethbridge and Mrs. Bernard and son Fraser, were here over the week-end visiting with Mrs. Bernard's parents, Mr. and Mrs. William Fraser.

Sunday's train from the west, being several hours late, necessitated the hockey team hastily chartering a Greyhound bus to make the trip to Drumheller. Many admirers of the team were down to wish them good luck.

Ev. Blackstock's orchestra, which played for a dance here last week, was the best that has visited the Pass towns for some time. Though there was a small number present, all speak very highly of their ability.

On Friday evening a concert will be held in the Community Hall, in aid of the moving picture fund for Coleman schools. The program will be given by the school pupils and teachers, who have been giving considerable time in rehearsing during the past few weeks.

Robert Cardinal, for two years on the staff of the Bank of Commerce here, has been transferred to Macleod branch. By his courteous manner he made many friends here, whose good wishes follow him to his new appointment.

Over 100 light connections were made in East Coleman to connect up with the service of International Coal & Coke Co. Ltd. The use of electric light is appreciated by the people there, and considerably reduces the fire hazard from coal oil lamps.

A man was arrested by the R.C.M.P. on Friday, who has been living for some time near Sentinel. It was at first reported he was picked up as a suspect in the recent armed robbery of Distributors, Ltd., but he is held on a charge of vagrancy after a remand by Magistrate Gresham. Investigation is proceeding.

Under the arrangement whereby the provincial government will take over the sale of beer, which it is calculated will bring in additional revenue from the profits, a delivery service will be instituted similar to the service at present in force. Bigger profits from the sale of liquor and beer were recorded for 1935, which doubtless the government welcomes to help balance the budget. The new warehouse for this district will be in the Thompson store (west end) at Blairmore, which will be taken over by the liquor commission.

Mrs. J. Nash entertained at bridge on Friday evening, the first prize being won by Mrs. T. Holstead, second to Mrs. Ken Blain.

Fred Antrobus was a delegate from Coleman town council to a conference of municipal representatives at Macleod last week, regarding relief payments made by municipalities.

Coleman Rangers held an enjoyable leap year party in St. Alban's hall on Friday evening. The girls had to ask for the dances in place of the boys, and generally speaking reversed the usual order of things.

At the services in St. Paul's church on Sunday, conducted by Rev. Harry Peters of Granum, there was quite a good attendance both morning and evening. Mr. Peters was at one time a minister at Bellevue.

Rev. Roy C. Taylor, M.L.A., returned to Edmonton on Monday for the re-opening of the legislative session, which was adjourned on Tuesday last for various reasons. Mrs. Taylor, who was visiting in Edmonton since the session opened has returned to Coleman.

Mr. and Mrs. James Ford and grandchildren, Billy and Helen Shields, motored to High River for the week-end to visit Mr. and Mrs. A. L. Watkins. Mr. Ford stated they heard the hockey game broadcast there quite clearly and on Sunday they heard the radio address of King Edward VIII.
